STÖCKL'S PHARMACY

2cl 4,20

Jelinek's Spirits Finally available at Stöckl! A traditional distillery since 1894. Even during the communist era, the big bosses made sure distillation continued in a beautiful, secluded Moravian valley at the highest capitalistic level. Even Prince Schwarzenberg is an ardent admirer of these great spirits!

Slivovitz (45%)	Through a three-year maturation, this plum brandy obtains a soft, rounded fruit flavor with pleasant undertones.
Slivovitz Gold (45%)	Gold Slivovitz is stored in oak barrels for three years to mature. It has a golden color and its fruity aroma gains a woody note from the barrique aging.
Apricot (42%)	After triple distillation and a one-year aging period, this schnapps captivates with a wonderful apricot flavor.
Cherry (42%)	A fine distillate made from an old, late variety of sun-ripened black cherries—incomparably fine cherry aroma.
Raspberry (42%)	This brandy impresses with its unmistakable fruity taste and an aroma indistinguishable from freshly picked raspberries.
Rowanberry (42%)	Connoisseurs appreciate its unique, woody-tart taste, its fine bitter almond note, and its intense, long-lasting aroma on the palate.
Williams Pear (42%)	William the Conqueror brought this wonderful fruit to Moravia during the 4th Crusade, where it flourished and blesses us with this wonderful brandy today.

The Road to the British Empire via Gin and Gin Tonic

Gin is a grain spirit flavored with juniper berries and various herbs; in Holland, it is drunk as „Genever“. William of Orange brought it to the Kingdom as GIN. Fever and plagues were far less common among British soldiers and sailors pumped full of gin than among their enemies. When years later an effective malaria prophylaxis was created with Gin & Tonic, the British Empire was unstoppable.

Protect yourself and your loved ones with Gin & Tonic!!!!

BEERS

Dudak „The Bagpiper“

A small brewery from Strakonice—the hometown of our hostess—at the foot of the Bohemian Forest. The water comes from a depth of 400m. They lovingly brew this typically Czech, pale, unpasteurized lager beer in an old tradition dating back to 1376.
